

PC Parts, Inc. Named on Inc. 500/5000 List for Second Year in a Row

PC Parts Inc. (www.pcpartsinc.com), a leading global re-manufacturer and distributor of aftermarket IT service parts since 1991, is excited to announce that, for the second consecutive year we have been named on the Inc. 500/5000 list for the fastest growing privately held companies in America (<http://www.inc.com/>). Official rankings will be released in mid-August; a follow up press release will be forthcoming.

“After recently being recognized as one of the top 50 fastest growing companies in Central Pennsylvania by the Central Penn Business Journal, it is great to know that we can also stand out among the over 7 million privately held companies across this great country. This is our second year on this prestigious Inc. 500/5000 list and although it is nice to be recognized by institutions such as the Inc. 500/5000, we know that our customers and employees are the most important stakeholders in running a successful business. If we continue to put them first, recognition and accolades like this will undoubtedly continue to follow.” – Adam Crockett, Sr. Vice President, Sales & Marketing

About PC Parts, Inc.

PC Parts provides best in class, niche, business process outsourcing for the IT hardware repair/ service supply chain. PC Parts offers a unique suite of logistical and system integration services coupled with proprietary data informatics that facilitate the strategic inventory planning, distribution, logistics and transportation of critical service parts in the field prior to their consumption.
